HARSHITA LAXMAN MOGER

Kengeri, Bengaluru, Karnataka 560060 | +91 9591034066 | harshitalaxman11@gmail.com
GitHub: github.com/harshita-spec | LeetCode: leetcode.com/u/Harshita_Laxman_07

SUMMARY

AI/ML Engineer with hands-on experience in deepfake detection, computer vision, NLP, and LLM-powered web applications. Skilled in building interpretable machine learning models, RAG-based assistants, and deploying full-stack solutions. Strong foundation in data structures, problem-solving, and real-world AI applications.

EDUCATION

Bachelor of Engineering in Artificial Intelligence and Machine Learning Sep 2023 – Present
SJB Institute of Technology, Bengaluru | CGPA: 9.04/10

Pre-University Course (PUC) – PCMCs Jun 2021 – Jun 2023
The New English PU College, Bhatkal | Percentage: 93.83%

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL
- **Machine Learning & Deep Learning:** Scikit-learn, PyTorch, Computer Vision, NLP, Explainable AI (XAI)
- **Generative AI:** Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Agentic AI concepts
- **Web & Backend:** REST APIs, Authentication & Role-Based Access, Real-Time Chat, Cloud Deployment
- **Data Analysis:** Pandas, NumPy, Matplotlib
- **Core Concepts:** Data Structures & Algorithms, OOPs, DBMS, Operating Systems
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

Explainable Multimodal Deepfake Detection System Mar 2026 – Present
GitHub: github.com/harshita-spec/Explainable-Multimodal-Deepfake-Detection

- Developed a multimodal deepfake detection system achieving approximately 90%+ accuracy on large datasets (10,000+ samples).
- Built image and video-based detection pipelines using deep learning techniques to detect manipulated media.
- Integrated Explainable AI (XAI) methods to improve model interpretability and trust.
- Collaborated in a team of 3 to preprocess data, train models, and evaluate performance.

CampusFlow – Smart College Academic Platform 2026
GitHub: github.com/harshita-spec/CampusFlow-Smart-College-Academic-Platform- | Live Demo: campus-flow.duckdns.org

- Built a full-stack academic platform that centralizes study materials, notes, and exam papers organized by semester and subject.
- Developed NexusAI, an AI assistant delivering fast syllabus Q&A grounded on official lecture notes using a RAG approach.
- Implemented real-time semester doubt rooms for live chat between students and faculty.
- Designed secure, role-isolated verified accounts with campus authentication and deployed the application live.

Multilingual Healthcare Chatbot Feb 2026 – May 2026
GitHub: github.com/harshita-spec/Multilingual-Healthcare-Chatbot-using-NLP

- Developed an AI-powered multilingual healthcare chatbot that understands and responds to healthcare queries in multiple languages using NLP techniques.
- Implemented text preprocessing, N-gram language modeling, Naive Bayes classification, and TF-IDF based information retrieval.
- Integrated language detection, symptom analysis, and multilingual response generation with an interactive CLI for real-time use.

EXPERIENCE

Data Analytics Intern – iStudio (Online)

- Applied data cleaning, visualization, and exploratory data analysis using Python libraries to extract actionable insights from real-world datasets.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode, focusing on problem-solving and algorithms.
- Completed NPTEL Certification in Deep Learning for Computer Vision.
- Completed NPTEL Certification in Introduction to Modern C++.

KEY STRENGTHS

Strong analytical and problem-solving skills | Quick learner with adaptability to new technologies | Effective communication and teamwork
